Dr. Citty is a Clinical Associate Professor at the University of Florida College of Nursing and a Clinical Nurse Investigator at the Geriatric Research Education Clinical Center (GRECC) at North Florida/South Georgia Veterans Health System in Gainesville, Florida. Dr. Citty is a professional nurse with more than 27 years of experience in nursing practice, education, and research working in a variety of settings. Dr. Citty has clinical and scholarly experience with electronic health records such as Epic, Meditech, and CPRS/BCMA. She was the principal investigator on two clinical projects focused on evaluating and improving the process and workflow in ordering, administering, documenting, monitoring, and evaluating insulin and enteral nutrition therapies and documenting them in the electronic health record. Her current project is analyzing reports submitted to the Joint Patient Safety Reporting (JPSR) database to evaluate and inform practice related to nutrition therapies for hospitalized veteran patients. She is an active member of the American Nurses Association, the American Medical Informatics Association (AMIA), and the American Society of Parenteral and Enteral Nutrition (ASPEN) Clinical Practice Committee and Clinical Informatics Committee.
